

## Visionet Systems

[WWW.VISIONETSYSTEMS.COM](http://WWW.VISIONETSYSTEMS.COM)

For most of the past decade, Cranbury, N.J.-based Visionet Systems has developed technology to automate processes and address pain points for the mortgage industry. In 2006, the VisiRelease platform handled over a million streamlined lien releases, giving servicers a big savings in transaction costs. In 2007 Visionet brought to market a repurchase portal with a claims-management module suited to handling subprime claims.

Founded in 1995
